SUMMARY

Marketing automation specialist working remotely with companies and sales teams. Builds n8n, Zapier, GoHighLevel and HubSpot workflows that connect forms, CRM, prospecting, WhatsApp and email, and codes the tool when it does not exist: dashboards in Next.js and TypeScript and internal modules in Python and Django. A background in psychology and quantitative research helps design processes teams actually adopt and measure whether they move a metric.

WORK EXPERIENCE

Co-founder and Automation & Growth Lead

2026 – Present

Vulcano

Remote

Software, data and process-automation engineering studio.

- Lead automation and growth for the studio: workflow design, lead generation, CRM operations and content strategy for clients across LATAM, Spain, the United States and the United Kingdom.

Marketing Automation Specialist

Apr. 2026 – Present

On My Way

Remote

- Design, test and maintain WhatsApp conversation flows that qualify, route and follow up on enquiries, with hand-off to a person when needed.
- Build and document GoHighLevel (GHL) automations: pipelines, follow-ups and CRM touchpoints so sales and marketing work from the same process.
- Coded the Django module that tracks English-program students: Rosetta Stone API client, program rules, daily Celery sync, progress panels, Zoom sessions and email alerts when a student stops studying.
- Co-wrote the Next.js and TypeScript operations dashboard that brings together costs, clients, appointments and the sales pipeline, fed from the CRM through n8n.
- Build Webflow campaign pages and run webinars and lead capture with Jotform and Wistia.

Virtual Assistant & Automation Support

May 2025 – Mar. 2026

CFOPro LLC

Remote

- Implemented n8n workflows integrating the CRM (ClickUp), prospecting tools (Apollo, LinkedIn Sales Navigator) and email (SalesHandy), removing the manual steps between finding a lead and contacting them.
- Designed and ran automated LinkedIn outreach and cold email campaigns with segmentation and personalized sequences.
- Developed internal web applications with React, Astro and Vite: centralized dashboards and automated resource management.
- Automated newsletters and email campaigns with scripts and scheduled workflows.

Copywriting & Personal Branding (freelance)

2024 – 2025

Independent

Remote

- Developed personal branding and communication strategies for technology professionals, with automated content workflows and consumer-psychology-driven messaging.

Research Lead

Jun. 2024 – Present

Clinical and Health Research Group, UPTC

Tunja, Colombia

- Lead a study on the impact of social media on adolescent social skills, with statistical analysis and automated processing of large datasets.

EDUCATION

BSc in Psychology (in progress)

2022 – Present

Universidad Pedagógica y Tecnológica de Colombia (UPTC)

Tunja, Colombia

Relevant coursework: probability and statistics, psychometrics, learning, organizational psychology.
